

CARE ENOUGH TO SHARE: PRODUCT TESTIMONIAL

Marie Willis

Columbia, Tennessee

BLOOD PRESSURE ■ CHOLESTEROL ■ INFLAMMATION ■ PAIN ■ WEIGHT LOSS

I want to share with you something so amazing that changed my life – in a time that doctors had given up on me. I prayed for healing, but never thought it would come in the form of chocolate!

I tore the cartilage in my knees and had to have surgery. The inflammation set in and they tried cortisone shots – over 10 shots in each knee over two years. I wore compression stockings and braces on both legs in order to walk. I did therapy three times a week. Nothing helped relieve the inflammation. My doctor told me I would have to live with it, and that there was nothing else he could do.

I prayed that God would put something in my path that could heal my legs. A friend told me about a special high-antioxidant Healthy Chocolate that reduces inflammation in the body. I thought she was crazy, but I decided to try it. Within one month, I started seeing a difference. Today, I wear no braces on my legs. I'm able to dance with my grandchildren. I've also been able to get off my blood pressure medicine, all pain medication, and cholesterol medicine. I've lost 35 pounds, and I feel at least 20 years younger. This chocolate is like the fountain of youth. I want everyone to experience their body without inflammation. It's amazing. Thanks

to God, I now have a chocolate ministry named "Feel Better Chocolate." God is good. All the time.

I want to share the good news about Healthy Chocolate with the world. Pray about it and see who God puts on your heart to help.

This has been an answer to prayer for me. Reach out and help someone else find their answer. You may be the bridge that God has intended. Who do you know that has high blood pressure, heart issues, arthritis, diabetes, fibromyalgia, lupus, digestion issues, irritable bowel, irregularity or wants to lose weight? Everyone needs high-antioxidants for good health. It's the best defense our body has for building our natural immune systems. I want people to know they can feel better. Just take a leap of faith and try an all-natural solution. God made the cocoa beans. Man messed up and made candy. We've went back to the roots and rediscovered the power of raw unprocessed cocoa, the way God meant for chocolate to be. I love it when people call to tell me what difference this made to their lives – how amazing they feel. This is the blessing that people are praying for.

Please help me share the good news about the power of God's superfood – cold-pressed, high-antioxidant Healthy Chocolate!

Wishing you wellness!
